THE ART AND SCIENCE OF SIMPLIFYING THE CURVE

1515 Sunset Dr. Coral Gables, FL

## 25-Foot Ready-Hat Vault or 12-Foot Ready-Track Dome, We're There!

Hand-bendable Ready Products by Radius Track Corporation deliver exactly what our customers need when they need it. Available at distributors across the country, off the shelf hand-bendable framing solutions provided the curves quickly and conveniently. Plus, Ready-Hat® is the only hand-bendable hat channel product in the marketplace.

In Jackson, Michigan, a community icon built in 1939, known as The Dome, needed to be restored. Shively-Bouma Inc. chose Ready-Track® hand bendable framing by Radius Track to match the original dome shape and provide the needed depth for spray foam insulation and a fastening surface for the exterior sheathing. "Ready-Track® is a time saving product that is easy to use and in stock at our local distributor," said Chris Dobie, Shively-Bouma Project Manager.

The Dome, Jackson, MI

More than 1,360 miles away at 1515 Sunset Drive, Coral Gables, Florida, Paramount Drywall, Inc. chose 2,900 lineal feet of Ready-Hat® to frame an elliptical vault topping a driveway through an office building. "Paramount Drywall's Superintendent chose hand-bendable hat-channel by Radius Track to shape the 25-foot elliptical shaped vault because field conditions could not be locked down," said Melanie K Drennen, Radius Track Account Manager Southeast, US. "He added that they are considering Ready-Hat® for a future remodel project because it was so easy to use."

When you need hand-bendable curved framing products fast, ask your local distributor for Ready Products by name: Ready-Track®, Ready-Arch®, Ready-Angle®, and Ready-Hat®.

### Bridge the gap from complexity to constructability.

Radius Track is the subject matter expert in designing, engineering and fabricating framing solutions for curved and complex surfaces. Our Design Assist + Precision Fabrication process ensures the accurate translation of your ideas – from design through material delivery.

We are passionate about serving our customers well. Our vast experience with curved and complex surfaces assures that we anticipate potential fabrication and construction issues before they place a project at risk. And we support the project to the finish by delivering concise installation instructions and, most importantly, staying with you until the job is done.
