

Scott Finley Joins Radius Track as Account Manager – Southwest, USA

Ready Products
Hand-bendable framing solutions

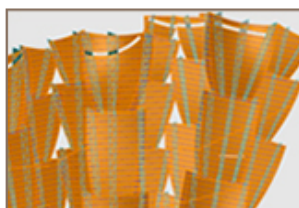

Radius Track Corporation, the leader in designing, engineering and fabricating framing solutions for curved and complex surfaces, is pleased to welcome Scott Finley as the company's Southwest, USA Account Manager.

Scott brings more than twenty years of sales and business leadership experience with manufacturing and building materials companies to Radius Track. As Southwest Account Manager, he will partner with drywall, framing and construction subcontractors as well as general contractors to demonstrate the expertise Radius Track brings to projects with any shape and size of curved or complex surface. He will also work with building materials distributors to ensure they have the products and information they need to support their contractor customer-base. Scott's territory includes Arizona, California, Nevada and New Mexico.

Curved-Right®
Del Amo Fashion Center, Torrance, CA

Scott takes pride in bringing significant value to construction industry customers by listening for challenges and facilitating the exchange of ideas with the right team of experts. "Scott's commitment to getting to the core of an issue and connecting customers to the best solution is exceptional," said Luanne Ketchie, Director of Sales for Radius Track Corporation. "Customers are delighted by his ability to present a fresh perspective. Scott is a perfect fit to introduce contractors to the cost-effective, constructable solutions designed and delivered by Radius Track."

**Design Assist &
3D Modeling/BIM**
Musco Center for the Arts at
Chapman University, Orange, CA

Contact Scott to learn how he can help resolve complex framing challenges for interior surfaces or exterior envelopes. Radius Track offers Ready Products hand-bendable off-the-shelf framing profiles, Curved-Right® precision fabricated custom curved framing components, Unitized Framing solutions, and Design Assist services including 3D modeling/BIM.

Bridge the gap from complexity to constructability.

Radius Track is the subject matter expert in designing, engineering and fabricating framing solutions for curved and complex surfaces. Our Design Assist + Precision Fabrication process ensures the accurate translation of your ideas – from design through material delivery.

We are passionate about serving our customers well. Our vast experience with curved and complex surfaces assures that we anticipate potential fabrication and construction issues before they place a project at risk. And we support the project to the finish by delivering concise installation instructions and, most importantly, staying with you until the job is done.

RADIUS TRACK DESIGN ASSIST

The initial phase of our Design Assist engagement is always free-of-charge.

Schedule a complimentary consultation.
