

Radius Track Corporation Return Policy

Radius Track accepts returns on most of its Ready Products with prior RTC authorization. Returns are accepted in full bundle amounts only within 6 months of the ship date. The product must be in saleable condition. A 20% restocking/packaging fee will be charged. A credit will be issued after the material is received and determined to be in saleable condition. The refund will be based on the LF cost the customer paid for the material and not the price of material at the time of return. Original shipping charges will not be refunded. Customer is responsible for the return shipping costs.

Radius Track does not accept returns of any material that is part of its Curved-Right® Custom Framing services.
